Sprint 6 Plan

Sprint Goal: During this sprint, we are finishing up our user stories and polishing our final mobile app. We still need to implement a status post, where once the driver/passenger both confirm completion of the ride then the post is marked completed and removed from the feed. Likewise, if the pick up time and date has passed, and no one has accepted the ride request then the post gets removed from the feed as well. We will be wrapping up the user stories that carried over from sprint 5 (mostly done). Our last user story is implementing the report system.

Team Capacities:
- Matthew:
  - Base capacity: 15 hours
  - Individual capacity: 15 hours
- Crosby:
  - Base capacity: 15 hours
  - Individual capacity: 15 hours
- Nalvi:
  - Base capacity: 15 hours
  - Individual capacity: 15 hours
- Billy
  - Base Capacity: 15 hours
  - Individual Capacity: 20 hours

Planned Work:
1. [US8: Payment Calculation](#)
2. [US6: Notifications](#)
3. [US7: Chat System](#)
4. [US4: Payment Options](#)
5. [US13: Bio](#)
6. [US5: Report System](#)
7. [UI/Backend](#)
