Sprint 3 Plan

Sprint Goal: Finish our login interface (from sprint 1). Following our roadmap, we are adding a feature where each post has an in-app payment calculation from pick up location to drop off location. For this sprint, we begin to develop features for the driver interface where the driver can view the posts, accept/decline posts, and specify their coverage area.

Team Capacities:
- Matthew:
  - Base capacity: 20 hours
  - Individual capacity: 10 hours
    - Will be unavailable during Spring Break
- Crosby:
  - Base capacity: 20 hours
  - Individual capacity: 10 hours
    - Will be out of town during Spring Break
- Nalvi:
  - Base capacity: 20 hours
  - Individual capacity: 12 hours
    - Will be out of town during Spring Break
- Billy:
  - Base capacity: 20 hours
  - Individual capacity: 12 hours
    - Will have to miss school for a little bit and will have to catch up on other assignments

Planned Work:
1.) US2: View Feed
2.) US8: Payment Calculation
3.) US12: Accept Rides
4.) US10: Specify Coverage Area
5.) US17: Log In
6.) BUG5: Only Verified Accounts
7.) BUG4: Create Alternative Email
8.) BUG2: Feed Connecting to Backend
